Nearly a Million People on the Streets of San Francisco When the Fair ends.

Entire City Participates in Last Hours of the Carnival--Parade of Illuminated Floats is a Feature.

One Float Shows Cook and Peary in Act of Nailing American Flag to the North Pole
--Queen Virginia Bids Crowd Adieu

(By Associated Press.)
SAN FRANCISCO, Oct. 23.—San Francisco's streets were one vast ball room tonight and the flying feet of thousands of dancers made the hard asphalt seem like springing spruce as they glided through the waves of confetti at the seven stationary floats, from which as many hands sent out strains whose dying echoes marked the close of the Portola festival.
Almost a million people crowded the sidewalks as the parade of illuminated floats passed in review. In one of these floats San Francisco outdid her reputation for love of pageantry, for one of them weighed upwards of 120,000 pounds, showing California's history from the discovery of San Francisco bay by Portola to the discovery of gold, all set forth in graphic scenes.
One of the most striking of the scenic floats was that showing the Yosemite with its frowning cliffs, over which real water fell in cataracts. The discovery of the North Pole with both Peary and Cook, nailing the flag to the pole, had as decorations huge cakes of ice in which were frozen fish, and green streamers of smilax. It was illuminated by 1500 incandescent lights.
Again the oriental colonies of the city took part in tonight's illuminated parade. Japan was represented by several scores, one float representing "Young Japan" waving American flags from beneath pink blossoms of cherry trees. Seven floats and almost 2000 attendants bearing silken banners and clad in gay costumes, made up China's contribution. The feature of this section of the parade was a dozen illuminated fish shaped lanterns, a fire breathing dragon and a comic figure representing a devil fish, which an attendant teased and tickled with a feather duster.
Queen Virginia made her way through the clamorous streets in a majestic float representing the steps of a throne from which, 20 feet up in the air, the queen nodded greetings. At seven corners on Market street were stationed enormous floats made upon electric flatcars.

MASS MEETING HELD BY SOCIALISTS IN LOS ANGELES

Protest Against Deportation to Mexico of De Lara--Noted Author Says This Would Mean Death of Mexican.

(By Associated Press.)
LOS ANGELES, Oct. 23.—At a mass meeting held here tonight to protest against the proposed deportation of L. Gutierrez De Lara, to Mexico, the principal speaker was John Kenneth Turner, the author of "Barbarous Mexico," now appearing in serial form, who was guided in his trip through Mexico by De Lara. Turner said the deportation of De Lara meant death. He scored the Los Angeles police for their notorious assistance to the Mexican government on this as well as former occasions, and said that the federal department of justice and the secret service have been placed at the disposal of President Diaz because of privileged American interests in Mexico.
The resolutions adopted protested against the arrest of De Lara as an alien, and criticized the government officials for "lending aid to effect the return of political refugees to foreign countries."
Mrs. De Lara, wife of the imprisoned man, was given an ovation on being introduced at the meeting.

EXPRESS AGENT ROBS THE COMPANY OF LARGE AMOUNT

(By Associated Press.)
PEORIA, Oct. 23.—Impelled by a sudden impulse to get rich quick, James Mahan, aged 25, the night agent of the American Express company at the Union station here, originated a fake hold-up story after robbing the company's safe of \$4000 in currency early today. After sewing \$1000 dollars in large bills in the lining of his coat-sleeves and scattering the remainder of the loot about in obscure places about the Union depot, he called for the police and declared he had been held up at the point of a revolver and robbed.
During his investigation of the alleged hold-up, Detective Wombacher had occasion to grasp Mahan by the arm. The crinkling of the bills in the coat-sleeve under the grasp of the detective led him to suspect the perfidy of Mahan.
With the assistance of his fellow officers, Wombacher overpowered Mahan, and the money was recovered. Mahan then led the officers to the places where he had hidden more than \$3000. He admitted that he had opened two packages, one of \$3000 and the other of \$1000. He had destroyed the wrappers and could not tell just where the money was addressed to.

FAMILY LOST ON SAN DIEGO DESERT WASTE

(By Associated Press.)
SAN BERNARDINO, Cal., Oct. 23.—It is reported in this city today that the unknown family lost in the desert of San Diego county, were traced to within a comparatively short distance of the west side of the main irrigation canal, but whether they found the water or were guided further away through some of the elusive canyons and arroyos in which that country abounds is still to be learned. The family must have suffered terrible torments in its winding journey from the point where its outfit was found, five miles east of Carriso creek, by T. H. Kellogg, a mining man.
When the three horses refused to go further over the burning sands and one fell in a dying condition, the man had unhitched the two remaining horses from the wagon, and loading the staggering animals and followed by his suffering family, set out across the rocky hills and searched the sandy plains. On every hand was evidence of the extreme suffering of those who took the trail. Kellogg says they stopped for rest with ever increasing frequency and their uncertain trail shows that they must have been in sore straits. All efforts to learn the identity of the family have proved futile. Aside from the rumor that they were from some of the coast towns and had started overland to the Imperial valley, there is no clue as to whence they came or whither they were bound.

COOK AND PEARY ARE BECOMING THE AFFIDAVIT KIDS

(By Associated Press.)
MISSOULA, Mont., Oct. 23.—An affidavit contradicting the assertions of Edward Barrill, in his affidavit declaring that Cook did not reach the summit of Mount McKinley, was secured by attorneys representing Cook in this city today from C. G. Bridgeford, who until recently was a partner of Barrill in the real estate business at Hamilton, Mont.
Other affidavits contradicting the statements made by Barrill and declaring that the latter made contradictory statements before he was induced to make the affidavit, have also been secured by the attorneys, but have not as yet been made public. Bridgeford will leave here Monday for New York, when he will appear as a witness in support of the sworn statement he has made.

POPE HARTFORD WINS THE PORTOLA ROAD RACE

GOVERNMENT IS WATCHING MERGER OF EXPRESS COS.

(By Associated Press.)
WASHINGTON, Oct. 23.—The department of justice is watching reports of a proposed merger of the express companies but so far the only action has been a general decision or direction to the examiners in charge of the investigation of such matters to keep informed of the steps taken. This is with a view to having all the facts before the department for its information.
Wade Ellis, the assistant attorney general, has charge of the investigation of so-called trusts but when shown a story today regarding talk of a merger of the United States, Adams, Wells-Fargo and American companies, he declined to discuss the report.

Covers Distance of 250 Miles in Less Than Four Hours, or an Average of Over 60 Miles an Hour.

(By Associated Press.)
OAKLAND, Oct. 23.—Eclipsing the fastest record made at the Vanderbilt cup race and maintaining a speed of 60 miles an hour throughout and at times negotiating the 2 1/2 mile course in less than 20 minutes, the Pope-Hartford car No. 4, driven by Jack Fleming, won the 250-mile Portola road race today with more than a lap to spare over his competitors in the fast time of 3 hours, 58 minutes and 15 seconds.
Throughout the race Fleming kept up a terrific speed and, with the exception of one lap negotiated by the Stearns No. 15 in 18 minutes and 19 seconds, the Pope-Hartford made the fastest time throughout.
The Apperson No. 13, driven by Harris and Hanshue and the Lozier No. 12, driven by Harry Michener, were within two laps of the winner at the finish. Besides winning second place in the big event, the Apperson won the second race, negotiating 210 miles in 3 hours, 12 minutes and 33 seconds. The Lozier was given second place in the second race.
Fleming made the best time in the second event, but as he was not entered in this race, he could not take the contest. The actual running time by the Pope-Hartford was 64.51 miles an hour, breaking the world's record established at Santa Monica of 64.44 miles, and that of the Vanderbilt cup race of 64.42 miles an hour.
The racing was marred by a number of accidents, two of which may result fatally. These two were due to inefficient policing of the course, and in both cases spectators were the victims. O. F. Johnson of this city was struck by the Knox car, driven by Frank Lee, on the course near Fruitvale, and sustained injuries from which he may possibly die. An old man named McKittrick was the victim of one of the most peculiar accidents ever witnessed on an automobile race course when he sustained a fracture by a tire cast by a Sunset car.
On the second lap in the small car race, A. G. Linz, mechanic on the Maxwell car, was painfully injured by the breaking of the fly wheel of his motor. Early in the race the Chalmers-Detroit sustained a broken wheel, and Driver Howard Warner and Mechanic James McCauley were thrown out and badly bruised. The Stearns car, driven by D. A. Rooney, made the fastest single lap, covering the 2 1/2 miles in 18 minutes and 19 seconds.

TAFT AGAIN AFFECTED WITH THROAT TROUBLE

Cuts His Speeches in Dallas, Texas, Short -- Militiaman Stabs Spectator With Bayonet Shortly Before Taft's Arrival.

(By Associated Press.)
DALLAS, Oct. 23.—The president arrived from Houston late this afternoon and was immediately taken to the State Fair grounds, where he spoke. Taft was so hoarse that he could be heard only a short distance. He also spoke briefly tonight at a banquet tendered him at the Oriental hotel, when he returned to his car preparatory to leaving on the early morning train for St. Louis. From St. Louis, Monday afternoon, the president begins his pilgrimage of four days and five nights down the Mississippi river to New Orleans.
An unfortunate incident of the president's trip to Dallas was the bayoneting of Deputy County Clerk Louis Richenstein by one of the militiamen on guard at the fair grounds. Richenstein is said to be fatally injured. The stabbing occurred just before the president's train arrived at the fair grounds. It is presumed that Richenstein was trying to force his way through the crowd, although it is said he was behind the wire cable holding the crowd back, when the "tin soldier" used the bayonet. The matter is in the hands of the authorities.
